NUMB. 5051

WEDNESDAY, JUNE 26, 1745.

Turin, July 12.

THE Spaniſh Cavalry defiled on the 7th to Albanga, where they are encamped with the Infantry that followed them: The French Troops are likewiſe moving along the River of Genoa; and, according to all Appearance, they intend to form a Chain from the City of Nice to that of Genoa, which is a pretty large Extent of Country, and muſt at once fatigue and expoſe their Troops prodigiouſly. M. de Nangi, who is declared Aid de Camp General to the King, ſet out Yeſterday for the Auſtrian Army, in order to engage the General who commands it to advance into the Tortoneſe, that if there ſhould be Occaſion, his Forces may the ſooner join ours. In that Caſe the Corps of Troops we have at Voguera will become the Van-Guard of that Army. The Marquis d'Aix and the Count de la Roque received, the Day before Yeſterday, their Inſtructions from the War-Office: The laſt-mentioned General ſets out Tomorrow for Tortona. The King's Equipage is getting ready; and, as we apprehend, he will go thither alſo. The Prince of Piedmont is to make the Campaign with his Majeſty. There is one thing in which the Enemy and we ſeem to be agreed, which is, that if we can weather this Campaign, there will be an End of the War in Italy: For certain it is, that this Year they have exerted their utmoſt Strength; and it is no leſs certain, that a prodigious Strength they have exerted: Yet if the Allies do all of them their Parts, it is not poſſible only, but probable, for this Strength of theirs, great as it is, may be deſtroyed. If the Auſtrians keep their Corps compleat, and act in Conjunction with us, as they have promiſed to do; and if Admiral Rowley, to whom the King has written in the cleareſt and ſtrongeſt Terms, reinforces Admiral Matthews on the Coaſt of Genoa, and commits the Command of it to an Officer of Spirit as well as of Experience, the Difficulties the combined Army not only may, but muſt meet with, will prove inſuperable, notwithſtanding the Conduct of the Count de Gages, the Courage of the Duke of Modena, and the Vigilance of M. Maillebois. We lay this down poſitively, becauſe they have many Hardſhips to rub over; and if they fail in a ſingle Point, all they have done, or may do, will be to no manner of Purpoſe, and they muſt neceſſarily begin again.

Francfort, June 27. The Junction of th Two Armies of the Field-Marſhals Traun and Bathiani has been made without Difficulty or Oppoſition; and Yeſterday their Head Quarters were fix'd at Wachterbach. Their advanc'd Guards are within half a League of this City. Their whole Army will be in our Neighbourhood the Day after To-morrow; and, according to all Appearance, they will paſs the Rhine a little below Mentz. The French Army extends itſelf at preſent in a Line from Aſchaffenbourg to Hanau, but they have lately detached a Body of 6000 Men towards Offenbach. Yeſterday the Prince of Conti paſs'd by this City in great Haſte to Hochſt, from whence his Serene Highneſs is ſince returned to his own Quarters. Two Regiments of French Horſe marched this Day by our Walls to Hochſt, in order to reinforce the Troops that are poſted there; and a great Number of Peaſants are employed Night and Day in finiſhing the Fortifications that are making there. About Eleven this Morning a Party of Huſſars appeared near that Poſt; upon which, the French fired a Volley of Cannon, which obliged them to retire without doing them much Hurt. Another Party that had penetrated into the Bergſtraſs met there with a French Officer of Diſtinction, whoſe Pockets were laden with about 300 Piſtoles, of which Burden they eaſed him, and then very civilly diſmiſſed him upon his Parole. The Corps of 3000 Horſe which the French had at Pfungſtadt, has had Orders to rejoin the Grand Army for fear of Accidents; the Huſſars having lately carried off abundance of their Foragers. General Baron Trips has joined the Auſtrian Army with his Corps of Croats, Pandours, and Warradins, which is now ſwelled to 7000 Men. It is not doubted, but that they will harraſs the French to ſuch a degree, as to make them quickly weary of this Neighbourhood.

Hanover, June 25. The King of Great Britain, our moſt gracious Sovereign, has made the following Promotions in his Electoral Troops, viz. In the Horſe, Major-Generals Pauli and Lunay are declared Lieutenant-Generals; and the Colonels Wrede and Adelepſen, Brigadiers. In the Foot, Major-General Subiron is made Lieutenant-General; the Brigadiers Maydel and Boſelager, Major-Generals; the Colonels Kruogh, Block, and Sporken, Brigadiers. M. Alten, Aid de Camp of General Maidel, is made Captain-Lieutenant in the room of the Sieur Kotzbue, who had the Misfortune to be killed the other Day by a Clap of Thunder in the Army on the Rhine. The Baron d'Aſſebourg, Miniſter from Prince William of Heſſe, is returned to Caſſel. We talk very uncertainly of Prince Frederick of Heſſe coming hither; but we take all imaginable Pains to render the Diverſions of the Court more and more reſplendent. We particularly expect that there will be ſhortly a Mask-Ball in the Gardens of Herrenhauſen, for the Recreation of her Royal Highneſs the Princeſs Mary, who is extreamly pleaſed with the French Comedies that are played here, eſpecially when they are performed in the ever-green Theatre, where they have certainly a much better Effect than in the Gallery, which is only made uſe of when it rains.

Leſſines Camp, June 20. General Pulteney was detached on the 12th at Night, with a thouſand Foot, two hundred Horſe, and a hundred Huſſars, to a Village called Ronſen or Renay, within Three Leagues of the Enemy's Camp, to bring in a Quantity of dry Forage, which had been left there; which he did without Interruption from the French, though they had a general Forage at not above a Mile's Diſtance from General Pulteney's Party, at which their King was preſent in Perſon.

Dreſden, June 25. The Duke of Weiſſenfels was informed, on the 21ſt at Night, that the Pruſſians were raiſing a Battery; but it was uncertain whether againſt our Camp, or the Town of Konigingratz. As this Place is not fortified for a long Defence, it is expected that our next Advices will be of a farther Retreat; probably to Pardubitz. The Duke has given Orders, that the Artillery, ſent from hence, ſhould ſtay at Milnick. The Allies have as yet retreated in Order, and without any Loſs.

Berlin, June 26. The laſt Letters from our Army are dated the 18th from Nagorzini, near Nachod, a ſhort League from the Combined Army. As his Pruſſian Majeſty is thought to deſign to attack the Enemy again, ſeveral Poſtillions are lodged upon the Roads, to to be in Readineſs to bring us the News of a ſecond Victory. It is now ſaid, that the whole Magdebourg Corps is to file off into this City, and afterwards to march reinforce the Army in Bohemia; and that Two Regiments of Wolfenbuttel, and Three others are to replace them in Garriſon at Magdebourg. The Remains of Hack's Regiment of Foot are expected here very ſoon, to recruit, having ſuffered extremely in the late Action.

Hague, July 2. Count Podewils ſet out for Berlin early Yeſterday Morning, having firſt received, and introduced, his Succeſſor M. Ammon, who has given in his Credentials as his Pruſſian Majeſty's Reſident. M. Fogliani, the Sicilian Miniſter here, is making Diſpoſitions for quitting this Reſidence. The Right Honourable the Earl of Kildare, arrived here Yeſterday from England. Letters from Flanders, by Thurſday's Poſt, mention, that the French are making Preparations for the intire Demolition of the Works at Tournay. The Allied Army, which was encamped between Leſſines and Aeth, is now encamped between the former of thoſe Places and Gramont.

ANTI-SIPHYLICON.

THE only short and most infallible Cure in the Universe for the VENEREAL DISEASE, from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant VIRUS, and the very Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicts on one Hand, or a seminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Illness, attended with Nocturnal Pains, universal Breakings out, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Imungation, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconveniency, as [illegible] to bespeak it the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have found their great Joy experience'd.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicks of former Injuries, may by a few Doses of it intirely free themselves from all Suspicion of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all scorbutick, scrophulous, and even leprous Eruptions or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Dose than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SIPHYLICON is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. RADCLIFF's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is intirely rooted out of their Bodies

Note, Ask only for a Six Shilling Pot for the Scurvy.

Concerning Gleets *and* Seminal Weaknesses *of all Kinds.*

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experience'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigu'd with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and things All who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radcliff's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.

LONDON: Printed for M. COOPER, at the *Globe in Pater-noster Row.*
